Hi Tom,

I am not familiar with this process. Does this apply to all oxycodone/apap products/strengths??

Reported as suspicion to DEA???

Thanks,

Christopher Simmons RPh

Hi Gang,

Do not order any extra Oxy/APAP. It is placing you over the limit.

Pete & Tom,

Please see below regarding #2s cut oxycodone order. The store may order up to 500 dosage units prior to Wednesday.

Thank you
Brandon

Hi Brandon -

This customer's order for 1200 dosage units of oxycodone caused the customer to exceed its maximum accrual limit for oxycodone this accrual period. The order for 1200 dosage units has been cut, reported as suspicious to the DEA, and will not be shipped. Prior to that order, the customer had received 26500 dosage units of oxycodone for this accrual period. After review of available information, I have determined that a threshold adjustment is not warranted, and the customer's threshold will remain at 27000 .

If something has changed within the customer's business model (e.g., increased the number of long term care or assisted living facilities serviced; oncology practice opened nearby; services new hospice center, etc.), please let me know and I will review all additional information to determine whether a threshold increase is warranted. Please be aware that supplying additional information does not automatically warrant an increase in threshold.

Thanks -
Shirlene
